

□ Gizont 167mm 915mHz

VNA sweep

The Gizont 167mm is a very good narrow band antenna. It is likely a 1/2 wave dipole, **They say it is a 10 dBi but is more likely a 2-3dBi by length...**

Purchase link: <https://www.aliexpress.com/item/1005004607615001.html>

Result: -34.2 dB return loss at 910mHz, a perfect result (1.04 VSWR at 32.925230828 cm)
